

## REASON FOR EARLY CROWNING

KING WORRIES OVER PROPHECY THAT IT WILL NEVER OCCUR.

physical risk of ceremony less than the possible consequences of this suggestion prevailing on the mind of the king.

Special Cable Dispatch to THE SUN. London, July 12.—The cloud which hangs over the English people three weeks ago was finally dispelled to-day by the appearance of the complete recovery of the king and by popular enthusiasm over Lord Kitchener's return from South Africa.

The only croakers now are the superstitious and those who are afraid of the king's health. It is quite clear, however, that the king's recovery is a fact which has been the best friend of the British Empire for several generations, and that the king's sudden illness was a disaster to the nation.

It is quite possible, if not so absurd, to look to the king's recovery as a sign of the king's health. It is quite possible, if not so absurd, to look to the king's recovery as a sign of the king's health.

There was no sign of depression, however, in the behavior of the king through who gave a welcome to the returning soldier and peace-maker from South Africa. It is safe to say that Lord Kitchener himself was the only man who was depressed by the public adulation which was so unhesitatingly given. He is a man who unhesitatingly gives his life for his country.

His Majesty's case continues to be a subject of interest to the public. His Majesty's case continues to be a subject of interest to the public.

Whether there is any truth in the persistent reports of latent constitutional trouble the world is not permitted to know. For the present there seems to be every reason to hope that the king will be duly crowned in Westminster Abbey on Aug. 9.

The bulletin issued by the king's physicians this morning says: "The king is making excellent progress. On account of his Majesty's satisfactory condition the king will be crowned on Aug. 9."

AGREEMENT ON TIENTSIN.

Foreign Ministers Sign New Conditions of Restoration.

Special Cable Dispatch to THE SUN. Paris, July 12.—The foreign ministers met to-day to sign the conditions of the restoration of Tientsin to the Chinese. The conditions are as follows:

1. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

2. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

3. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

4. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

5. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

6. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

7. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

8. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

9. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

10. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

11. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

12. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

13. The Chinese government shall pay to the Japanese government the sum of 2,000,000 francs as compensation for the damage done to the Japanese property in Tientsin.

## RAILWAY THIEVES IN ITALY.

Tourists' Baggage Not Safe and Complaints Are Ignored.

Special Cable Dispatch to THE SUN. London, July 12.—Now that the tourist season is again on, it may perhaps be well to warn intending visitors to Italy that they must be on their guard against railway thieves, who are a standing disgrace to the Italian railways.

This season is already bringing forth the usual complaints. An English tourist, accompanied by his wife, who was travelling from Pisa to Genoa, received his registered baggage three hours after his own arrival at Genoa. The trunks had been ransacked, the dresses torn and jewelry to the value of 400 had been abstracted.

He appealed to the railway officials, who appeared to be indifferent, and referred him to the police, who were equally apathetic.

In a recent report a British Consul said that luggage robberies in Italy were scandalous, and were very much on the increase.

He had mentioned this matter in his consular report until he was advised of the frequency of his complaints. There is no remedy for the traveler except to remain in Italy and institute legal proceedings, and even then the result is more than doubtful.

OUR SQUADRON SAILS.

Leaves England for Norway in Command of Admiral Crowsley.

Special Cable Dispatch to THE SUN. London, July 12.—The battleship Illinois, the flagship of Rear Admiral Crowsley, of the European squadron, and the cruiser San Francisco, which were to have participated in the coronation naval review, sailed from Gravesend to-day for Christiania, Norway.

WASHINGTON, July 12.—The battleship Illinois, flagship of Rear Admiral Crowsley, of the European squadron, and the cruiser San Francisco, which were to have participated in the coronation naval review, sailed from Gravesend to-day for Christiania, Norway.

The naval officials were very much surprised over the receipt of Admiral Crowsley's telegram reporting the departure of the Illinois and San Francisco from Gravesend. Some necessary stores had been sent by the Department for these two vessels, and it is known that they could not have reached Gravesend by to-day.

The Navy Department sent out telegrams to places in England in the hope of overhauling the two vessels and having one of them return to Gravesend for the storm.

DE LESSEPS ON PANAMA CRASH.

Says French Failure Was Due to False Report of His Father's Death.

Special Cable Dispatch to THE SUN. Paris, July 12.—Charles De Lesseps, who said in an interview yesterday that he had no doubt that if the Americans undertook to build a Panama canal they would finish it, attributes the Panama crash to the false report of his father's death.

He says a canal with locks would take three years longer to build than a level canal. Although his father knew of his complete collapse before his death, he did not speak of it, but "ceased to ask for me from the day of my arrest. When I went to see him after a year in prison, I felt tears on my hand. I think it would have been all the same even if he had seen the work pass into foreign hands. He regarded the canal as a necessity. It is possible that he would say as I do. This is not the first time that France has had the merit of a grand idea without deriving the profit."

IMPERIAL CABLE SERVICE.

Colonial Premiers Expected to Agree on a Plan at This Conference.

Special Cable Dispatch to THE SUN. London, July 12.—There is reason to believe that when the conference of colonial premiers is resumed, direct communication between all British Government cable communication between the various parts of the empire will be discussed and settled.

The Pacific cable joining Canada and Australia is approaching completion and the project favored is to lay more cables between the Pacific and Atlantic oceans, so as to give the Government direct communication with the Pacific.

## TAFT'S PROGRESS AT ROME

MADE DESPITE HOSTILE INFLUENCES FROM MADRID.

Settlement of the Irish Question Expected by July 23. Straightforward American Methods vs. Latin Diplomacy. Pope's Interest in the Negotiations.

Special Cable Dispatch to THE SUN. Rome, July 12.—Gov. Taft of the Philippine Islands, as Commissioner of the United States, is continuing quietly his negotiations with the Vatican's commission of Cardinals regarding the proposed withdrawal of the friars from the islands. He expects to conclude the negotiations before July 24. He is now awaiting definite instructions from Washington.

London, July 12.—The reported rupture in the negotiations at Rome between Gov. Taft of the Philippines and the Papal Commission is based on a misconception. There is for the moment a suspension of the negotiations in order to enable Gov. Taft to refer to the Washington Government certain counter-proposals which have been put forward by the Vatican Commissioners.

It is understood that these refer to the departure of the friars from the islands, which the Vatican not unreasonably desires should be gradual and not made to assume the form of brutal expulsion, with the consequent humiliation of the church in the eyes of the Filipinos. Cardinal Rampolla, the Papal Secretary of State, cannot understand why there should be any difficulty about this matter. The United States, he says, will get the substance and the Vatican the shadow.

Telegraphing last night the Rome correspondent of THE SUN recalled the mysterious hostile influences which Gov. Taft at first encountered at every turn and which there is good reason to believe were worked from Madrid. Those influences have since been industriously at work and have more than once brought the negotiations to a standstill for the time being.

These have been trying times for Gov. Taft, who is quite unused to the subtleties of Latin diplomacy and seems to think that brusque straightforwardness is his best weapon. In using that weapon he has kept the Vatican for weeks past in a constant shiver, not of fear, but of irritated nerves and painful susceptibilities.

Nevertheless Judge Taft and his colleagues have really done well in the difficult circumstances. Their chief failing, according to a not unfriendly Italian critic, seems to be their robust aggressive faith in the power of the dollar to cure all ills and their inability to realize that the Church of Rome is not a sort of provincial syndicate, but a great world power.

Of the ultimate successful conclusion of the negotiations there does not appear to be much doubt. This faith is largely based on the known fact that the Pope is passionately resolved to have this Philippine matter settled in a manner which shall in no way imperil friendly relations between the Vatican and the Government at Washington. He sees that the people of the day when free America will be the Catholic power in the world, and that, in his opinion being a settled thing, he has not the slightest objection to the religious Americanization of the Philippines.

It is informed persons have suggested that the Pope has left everything to the Commission of Cardinals and has taken no share or interest in the negotiations. This is untrue. A report of every meeting of the Commissioners has been submitted to him and from the first he has advised, restrained and enjoined the Cardinals.

Men's \$4.50 and \$5.00 patent leather colt skin lace shoes. Boys' \$1.50 Russia Calf Lace Shoes, sizes 11 to 2 and 2½ to 5½. Boys' \$4.00 and \$3.00 Russia Calf Oxford Ties.
